

ENGAGING OUR MEMBERS

By Jesse Singerhouse, General Manager

Over the past several months I've used this column to discuss the key focus areas of our strategic plan. The fifth and final area deals with finding more ways to engage with our members. As a cooperative we are different from an investor-owned utility. We are member-owned and, if you recall an article I wrote in 2021, we discussed how members play a critical role in what happens at a cooperative. We are here to serve you and we want to design programs and services that add value to your membership in the cooperative. I've listed some of our key initiatives below.

Electric Vehicles and EV charging

We've already helped install a level 3 fast charger on our system at the Eau Claire Travel Center/29 Pines facility on County Highway T in Chippewa County. Our strategic plan also calls for us to examine the addition of level 2 EV chargers at strategic public places on Dunn Energy lines. Our energy services team will also be selling level 2 EV chargers for your home. We haven't promoted it yet because supply-chain issues make the chargers hard to come by. Watch the magazine and our social media for more details in the months ahead. Secondly, we leased an all-electric Chevy Bolt, and we will look to electrify our fleet more in the future as it makes sense. Finally, we will continue to develop rates that promote responsible charging of EVs. Since most EV charging will be done at home, we will work to develop programs that allow our members to charge these vehicles during an off-peak time, which will allow us to maintain a strong and reliable power grid. (9854001)

Environmentally Responsible Energy

We have plans to develop solar farms near Boyceville and Colfax. These sites will be about 10 acres in size and will produce enough energy to power around 600 average homes. Another goal is to sell out the remaining shares of our community solar farm near Downsview and look at another

community solar site in the future. These smaller 10–15-acre solar sites can be a good balance between land-use concerns and developing renewable energy. Many times, they can use the existing electric infrastructure near substations and are able to produce local renewable energy while being backed up by the larger grid.

Rural Broadband

DEC has no plans to be in the broadband business, but our goals in this strategic plan focus on helping the deployment of high-speed internet service to our members. We can do that through partnerships, letters of support for projects, and by having sound policies that allow for the development of rural broadband. We know rural broadband is important to our membership and the future economic growth of our service territory.

Member Participation

Having members who are engaged with the cooperative is important to being a member-focused organization. Being a board member of the cooperative is a great way for you to be involved in setting the future direction of our cooperative. Several of our current board members will reach their term limit (four three-year terms) in the next few years. So, developing a strong board succession program and new director onboarding process will be a key focus in the years ahead. We also encourage our members to attend the cooperative's annual meeting. We've changed the format to an evening meeting in our shop in order to keep costs down and try to increase attendance. The 2023 annual meeting will be Thursday, May 18.

Member input is very important to us in other ways as well. We will be seeking your opinion on timely topics by way of a member survey, most likely in 2024. In the meantime, you can always contact us via email at info@dunnenergy.com or give the office a call if you'd like to give constructive feedback on what we're doing.

As you can tell from the list of things above, and the articles these past few months, your cooperative has a lot to work on in the years ahead. This is in addition to the day-to-day work of processing payments, installing new services, responding to outages, and serving our members. We will work each day to safely deliver you reliable, affordable, and environmentally responsible energy.

Working for You

CAN YOU HELP US FIND THESE PEOPLE?

These former members have capital credits owed to them by Dunn Energy Cooperative. If you know any of these people, please have them contact us at Dunn Energy Cooperative: 715-232-6240 or 800-924-0630. Due to the length of the list, the joint membership names, if applicable, had to be omitted. (941009) You can find the complete list on our website at <https://www.dunnenergy.com/capital-credits>.

Hidden Account Numbers

If you find your account number hidden in the pages of this magazine and you call and tell us before the next issue is mailed, we'll put a **\$50 credit** on your electric bill. Happy hunting!

Last month's winners were Clifford Lee Jr. and Bernard Shiroda.

Jesse Singerhouse, Manager
